CAREER OBJECTIVE

AI & Data Science student with a focus on programming, problem-solving, and web development. Seeking opportunities to apply knowledge in real-world projects and contribute to innovative solutions. Committed to gaining hands-on experience and fostering professional growth in collaborative settings.

EDUCATION

GMR Institute of Technology – Vizianagaram, Andhra Pradesh | 2022 – 2026

Bachelor of Technology in Artificial Intelligence and Data Science

- CGPA: 7.84

INTERNSHIPS

Software Engineer Intern | Feb 2025–Present

Rugua (Remote)

- Working as a Software Engineer focused on developing and maintaining web applications.
- Gaining hands-on experience in real-world applications by using react.js and Django

JAVA Programming, Summer Intern | JUN – JUL 2024

MSME Technology Center – Visakhapatnam, India

- Acquired foundational knowledge in Java, focusing on pattern problems and arrays.
- Developed a calculator and menu system to demonstrate Java programming capabilities.

PROJECTS

SmartClick – Educational Project Selling Platform

Tech Stack: React.js, Tailwind CSS

- Developed a responsive web application for selling educational projects, similar to Udemy, during an online internship at Rugua.
- Integrated dynamic course listing and filtering functionality to streamline user experience.

AI Tech – Scoped Application in ServiceNow

Tools: ServiceNow Studio, GitLab, Client Scripts, UI Policies, ACLs, Service Catalog

- Developed a scoped application to automate AI safety device orders with role-based access.
- Implemented Client Scripts, UI Policies, and ACLs for secure, dynamic form behavior.
- Enabled automation of order lifecycle from request to delivery, improving workflow efficiency.

Xplore Bharat – AI-Powered Travel Itinerary Generator

Tech Stack: Flask (Python), HTML/CSS/JS, SQLite, AI Module

- Built a smart web application that generates custom travel itineraries using AI.
- Collected user inputs (budget, location) and used AI models to generate day-wise plans.

SKILLS & ABILITIES

- ServiceNow administration & Application Development
- Java programming
- Python programming
- SQL database management
- React.js
- Frontend development
- C programming
- Time management

CERTIFICATES

ServiceNow Certified Application Developer
ServiceNow | 2025

ServiceNow Certified System Administrator
ServiceNow | 2025

Prompt Engineering for ChatGPT
Coursera | 2025

Introduction to Machine Learning
NPTEL | 2024

Data Analytics Basics for Everyone
edX | 2024

ACHIEVEMENTS

- Global Certification in ServiceNow CSA and CAD
- Regional Level Participation: 800m and 1500m Running
- Rotary Club District-Level Participation: Kho-Kho (Runners) & Kabaddi
